

# Spavinaw Conforms to Labor's Program—

*American Federation Resolves,  
and Common Sense Confirms, the  
Necessity of Civic Building—*

Tulsa is just rounding the corner on the return from depression to prosperity. When we will make the grade back to normal depends largely on two cardinal necessities. They are:

1. Honest work must be provided for ALL who live in Tulsa, as quickly as possible.

2. The quick return of investment confidence in the future growth of Tulsa, and the safety of money invested in Tulsa.

The city must lead off in this program!

Six Million, Four Hundred and Fifty Thousand Dollars of the Spavinaw Bonds will be Spent on Labor, and Materials Produced by Labor.

We cannot expect that labor can be provided with full work on private enterprises of building and commerce, until the people, who are the city, show their confidence that money can safely be invested in their town by public approval of public investments in civic improvements; such as the SPAVINAW BOND ISSUE.

Full time for citizens of Tulsa next Spring is fully as important as is the water problem.

Approval of the SPAVINAW BONDS November 29th will prove positively that the people of Tulsa are determined to build a great city here.

It will loosen the flood gates of private enterprises—it will prove to companies who loan money that they can safely loan it here—for here will be a growing city.

Labor Will Do Its Share to Start the Tulsa  
Building Program in Full Swing by Voting YES--Nov. 29
